

LTS

LONG LIFE

SPRING BRAKES

MGM Brakes
A Division of Indian Head Industries, Inc.

Form 5104

Featuring

Compact Design

- Center Hole Diaphragm
- Integral Release Bolt
- Corrosion Fighter Technology
- Long Stroke Design
- Breather Tube Technology
- Threaded Rod or Welded Yoke Technology

BUILT TOUGH

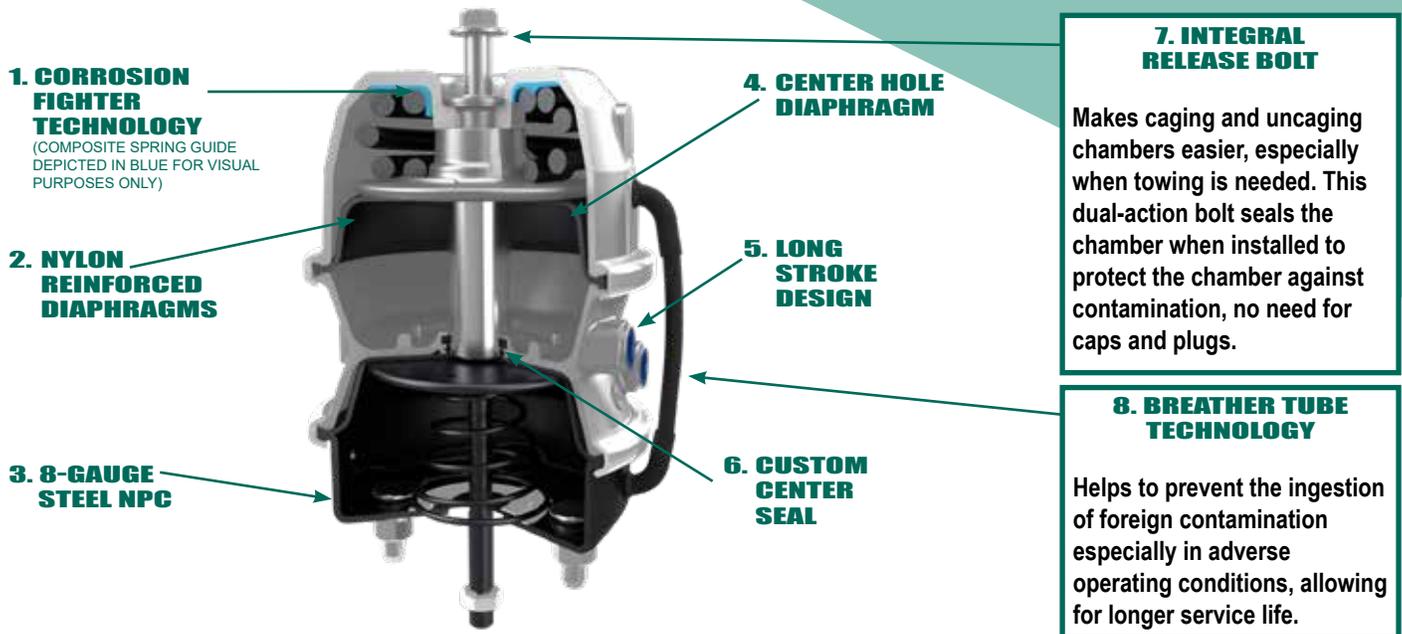

Designed for superior performance
and lower total cost of ownership

LOOKING FOR ADDED VALUE?

Our LTS spring brake chamber provides added value for your truck and trailer fleet. This sealed, double-diaphragm brake chamber with its compact design has many standard features specifically engineered to provide optimum spring brake chamber performance. Design features include MGM's integral release bolt to ease installation and removal, breather-tube technology to resist ingestion of foreign contamination, and our exclusive Corrosion Fighter Technology (composite spring guide to correct spring alignment) that assures superior corrosion resistance of vital internal components especially while operating in adverse weather conditions. The LTS chamber is available with a threaded push-rod or welded yoke for most truck, tractor and trailer applications. Proudly manufactured in the USA, the LTS spring brake chamber equals less down time and a lower cost of ownership for your fleet.

WHY INVEST IN A MGM CHAMBER?

1. CORROSION FIGHTER TECHNOLOGY
(COMPOSITE SPRING GUIDE DEPICTED IN BLUE FOR VISUAL PURPOSES ONLY)

2. NYLON REINFORCED DIAPHRAGMS

3. 8-GAUGE STEEL NPC

4. CENTER HOLE DIAPHRAGM

5. LONG STROKE DESIGN

6. CUSTOM CENTER SEAL

7. INTEGRAL RELEASE BOLT
Makes caging and uncaging chambers easier, especially when towing is needed. This dual-action bolt seals the chamber when installed to protect the chamber against contamination, no need for caps and plugs.

8. BREATHER TUBE TECHNOLOGY
Helps to prevent the ingestion of foreign contamination especially in adverse operating conditions, allowing for longer service life.

WHAT CHAMBER DO YOU NEED?

Piggyback Kits		
LTS3030ET008	LTS3030ET	Piggyback Plus Kit
LTS3030ET008X	LTS3030ET	Piggyback Plus Kit, Bulk/24 pieces
8" Threaded Push-Rod Chambers		
LTS3030ET049	LTS3030ET	Combination - Metric with M16 air ports. 8" push-rod
LTS3030ET050	LTS3030ET	Combination - Metric with M22 air ports. 8" push-rod
LTS3030ET051	LTS3030ET	Combination
LTS3030ET051X	LTS3030ET	Combination, Bulk/16 pieces
8" Threaded Push-Rod with Extended Tube		
LTS3030ET500	LTS3030ET	Combination - Extended tube
InTraax-VanTraax/Transit - Threaded Push-Rod		
LTS3030ET549	LTS3030ET	Combination - Metric with M16 air ports. Fully threaded 12" push-rod
LTS3030ET550	LTS3030ET	Combination - Metric with M22 air ports. Fully threaded 12" push-rod
LTS3030ET551	LTS3030ET	Combination - 5/8" x 12" push-rod
LTS3030ET555	LTS3030ET	Combination - Fully threaded 12" push-rod
LTS3030ET651	LTS3030ET	Combination - 3/4" x 18" push-rod
InTraax-VanTraxx/Transit - Welded Yoke		
LTS3030ET953	LTS3030ET	Combination with welded yoke - y=11.10"
InTraax-VanTraax Welded NPC - 12" Threaded Push-Rod		
LTS3030ET552	LTS3030ET	Combination with welded NPC
Welded Yoke for Truck Application		
LTS3030ET951	LTS3030ET	Combination with welded yoke - Y=2.25"
LTS3030ET951X	LTS3030ET	Combination with welded yoke - Y=2.25", Bulk/16 pieces
LTS3030ET952	LTS3030ET	Combination with welded yoke - Y=4.20"
LTS3030ET952X	LTS3030ET	Combination with welded yoke - Y=4.20", Bulk/16 pieces
Welded NPC - 8" Threaded Push-Rod		
LTS3030ET052	LTS3030ET	Combination with welded NPC
LTS3030ET052X	LTS3030ET	Combination with welded NPC, Bulk/16 pieces
