

MGM Brakes

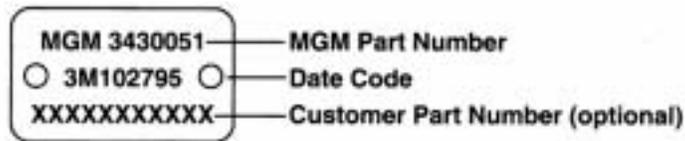

A Division of Indian Head Industries, Inc.

TECHNICAL BULLETIN

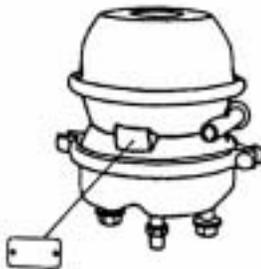

SUBJECT: PRODUCT IDENTIFICATION PLATE

All MGM brake actuators made after October - 1987 have an aluminum identification plate attached to the actuator which contains the MGM part number, date code, and often a customer part number.

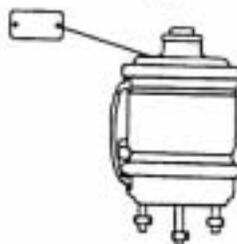

On all E, L, and TR model sizes the I.D. plate is riveted to the center section aluminum casting. On all MB, MG, WL and WM model sizes the I.D. plate is riveted to the aluminum head casting. On all C and CW model sizes the I.D. plate is bonded to the pressure cap. See the illustrations below for I.D. plate locations.
